- Type or print form neatly. <u>Leave a space between each event section</u>.
- List the performers who actually participated/received a rating. Do not include no shows, withdrawals, or "comments only" students.
- Record the total number of consecutive superiors in the first left hand column; include the current year. For example, use "1" if the current year is the first of the sequence of superiors.
- Record class and rating for last year and the current year in the two right hand columns (required).
- All requested information must be submitted on this form. Only official NFMC ratings should be reflected.
